Form and function working together...that's the Aga Legacy.

At Aga, we know what it takes to make a great looking and a great cooking range. If you want classic looks and modern function, then look to the Aga Legacy.

Known throughout Europe for its superior quality and craftsmanship the Aga Legacy is a legacy unto itself. And now it's a success in kitchens all across America.

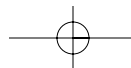

y.

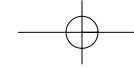

The unique gleaming spiral handles set off the curvaceous doors to satisfy the design conscious. Versatile gas burners and flexible electric ovens indulge those with the highest culinary standards.

With this bold appearance and contemporary features, it's easy to see why this Aga outlooks and out cooks every conventional range available.

Product Features

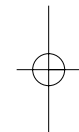

Manufactured to the highest European standards from the best materials, the Aga Legacy offers outstanding quality and engineering.

The backbone of the Aga Legacy is a strong, solid steel chassis, teamed with heavy steel doors, smooth reliable hinges and a durable, attractive enameled finish available in cream, black, white, and brick.

The gas cooktop, complete with sturdy cast iron grates, offers a triple ring wok burner with enough capacity to stir-fry better than your favorite Chinese restaurant. Additional various power burners offer heat for everything from simmering delicate sauces to quickly boiling pasta or vegetables.

Underneath, the Aga Legacy boasts three independently controlled electric ovens – a broiler, 7-Mode Multifunction oven and convection oven - that's more flexible oven space than any other comparable range of its size.

And not only are the ovens easy to cook in, but they are a snap to clean. Porcelain liners pop out and into the dishwasher for quick, easy cleanup.

44" LEGACY

Broiler

This large separate 2300-watt broiler has a 2-position tray, full or half broil modes and will easily accommodate four steaks or six kebabs.

7-Mode Multifunction Oven

This incredibly versatile oven gives you so much flexibility with your cooking. You can select pure convection, fan assist, fan assisted broil, conventional, browning, base heat or defrost mode to suit your needs. Use the programming function when you need timed or delayed cooking.

Convection Oven

This large capacity programmable convection oven continuously circulates hot air, for faster more even cooking. It is large enough to hold a 30-pound turkey and when in use delivers enough heat to the storage drawer below to warm plates or proof bread.

Storage Drawer

This is a convenient place to store your pans and baking trays. When the convection oven is use, the drawer gets enough just heat to be the perfect place to warm plates.

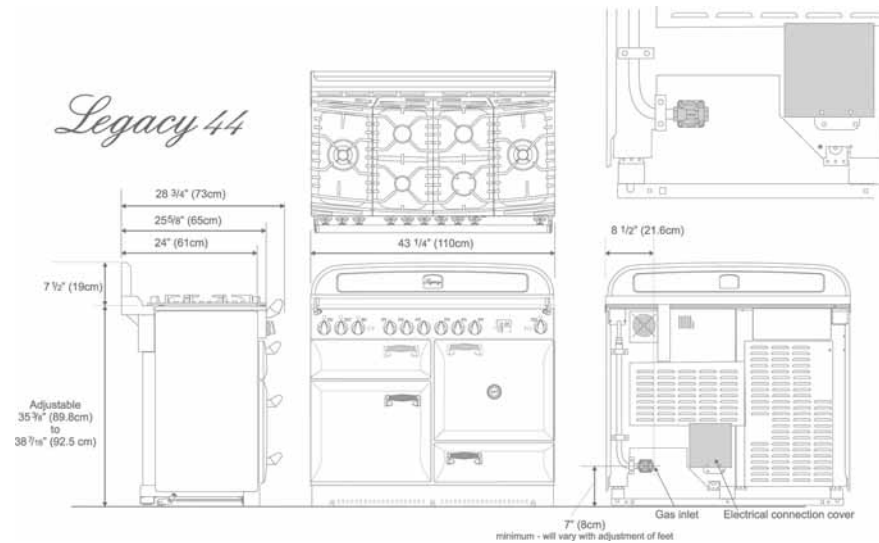

Handy Rack

This removable shelf located in the door of the oven provides safety and convenience. Fitted in one of the two positions on the inside of the oven door, it allows you to place dishes where they're easiest to access.

44" LEGACY

What more could you want from a range? The Aga Legacy 44 features a broiler, programmable 7-Mode Multifunction oven and programmable convection oven, as well as a convenient storage drawer. In addition, the cooktop configuration includes two triple-ring wok burners and four additional burners of varying capacity. No other range under 48" has this much functionality.... except for the Aga Legacy 36 maybe.

COLOR SELECTIONS

WARRANTY THE AGA LEGACY IS BACKED BY A ONE-YEAR WARRANTY ON ALL PARTS, WHICH INCLUDES ALL LABOR CHARGES FOR THE FIRST YEAR. SEE YOUR AGA SPECIALIST FOR DETAILS.

Dimensions stated are base measurements. For full dimensions and installation criteria, contact your local Aga specialist. In all colors, the side panels are black. The makers reserve the right to make alterations to the design, materials or construction for manufacturing or other reasons, subsequent to publication. This brochure is produced as a visual aid and is not intended to replace the installation or user instructions, or the need to view an appliance in person. The printing process may not accurately reflect the true colors.

Complement to the chef

So, if you've got the cooker, why not get the apron and gauntlets to match? The Aga Cookshop Collection is a range of cookware designed and made with the same meticulous attention to detail and quality as our cookers. But, you don't even have to own an Aga to enjoy it. Most of our items are suitable for any kind of appliance, including ceramic, induction or halogen. You can purchase items from The Cookshop Collection at most Aga showrooms throughout the country.

The Aga Experience

Your first point of contact with Aga is your local Aga Specialist. They are there to guide you and help you make the right decisions. They can also provide helpful advice about how to get the best results from your Aga Legacy.

For more information about the Aga Legacy, or any other Aga cookers, call 1.866.4AGA.4USA or visit our website at www.aga-ranges.com.
