FOR REBATE OPERATION USE ONLY. DO NOT WRITE IN THIS AREA.

Approved by: _____ Date: _____ Rebate amount: _____ Date purchased: _____ Install date: _____

QUALIFYING CUSTOMERS

Xcel Energy natural gas residential customers in Minnesota and North Dakota are eligible for rebates when buying qualifying, high-efficiency, new natural gas water heaters (reconditioned equipment is not eligible).

The program is applicable only for the purchase and installation of qualifying new water heaters sold by participating HVAC contractors or retailers for installation in new or replacement applications where natural gas is supplied by Xcel Energy at Xcel Energy retail rates.

Rebates for new home construction must be negotiated between the builder and resident or new home buyer to determine who receives the rebate.

Equipment	Efficiency Rating	Rebate
Water Heater	.62 EF	\$40
Water Heater	.64 EF	\$60
Tankless Water Heater	.80 EF	\$100

Efficiency ratings are determined using the Gas Appliance Manufacturers Association (GAMA) directory.

Participants of the Home Efficiency program are not eligible for Water Heater rebates.

REBATE DETAILS

These rebate amounts are valid only for equipment installed before December 31, 2008. Xcel Energy issues cash rebates in the form of checks, not utility bill credits. Xcel Energy is not responsible if your HVAC contractor provided inaccurate information about the amount and/or conditions of the actual rebate or equipment eligibility.

APPLICATION DETAILS

Customers must apply for this rebate within 12 (twelve) months of the purchase date shown on the sales receipt. Applications must include complete HVAC contractor or retailer information and water heater information including: size or capacity, make, model number, serial number and efficiency rating.

Failure to complete this information will result in a rejection of the application. No phone calls will be accepted to provide verification of this information.

A copy of the dated sales receipt or invoice must accompany complete information on the front of this form. The product invoice must specify the following: size or capacity, brand, model number, serial number, and efficiency rating. Failure to complete this information will result in a rejection of the application.

We reserve the right to conduct random inspections to verify installation of the residential water heater at the address indicated on the front of this form. If we select your application for a random inspection, the rebate application will not be processed until the inspection has been satisfactorily completed. Inspections may be performed after rebate payment at our discretion.

LIMITATIONS

Rebate quantities are limited; installation by a customer of a qualified water heater does not obligate Xcel Energy to pay a rebate. Rebate qualifications and amounts are subject to change any time. Our conservation rebates program may be canceled with 30 days notice.

If you are building a new home, you must obtain a sales receipt for the equipment from your builder or retailer. Only one rebate per water heater will be paid.

If you have questions while filling out this form, please contact your HVAC contractor or retailer for assistance. Please allow six weeks for your rebate to arrive.

Please visit us at xcelenergy.com/homerebates or call **1-800-895-4999** to determine whether any program changes have occurred.
